NOTE FOR SUPPLEMENTARIES.

Under the Madras Medical Attendance Rules, all patients whether entitled to free medical attendance or not, and whether treated as in-patients or out-patients in Government hospitals, are required to pay, in addition to other hospital charges, the cost of 'special and expensive' drugs. Streptomycin, Chloromycetin, Auromycin and P.A.S. which are costly drugs, have to be purchased by the patients themselves. In the interests of poor patients suffering from Tuberculosis, the Government in December 1949 sanctioned a recurring expenditure of Rs.40,000 for the purchase of Streptomycin for administering it, free of cost to poor patients in certain select hospitals in the City and mufassal. Out of Rs.40,000, a sum of Rs.1000 was sanctioned for the purchase of Streptomycin for the treatment of indigent patients in the Headquarters Hospital, Mangalore.

2. In view of the increased cost of drug and increase in the number of patients deserving treatment, the D.M.S. proposed in 1951 that the monetary limit of Rs.40,000 might be increased to Rs.85,000/-. The proposal was considered as a Part II scheme for 1952-53 but it was deferred ~~in June, 1952, the D.M.S. was informed that it has not been possible to provide funds for the above scheme in the Budget for 1952-53~~. The D.M.S., was asked to renew the proposal in time for consideration as a Part II scheme for 1953-54. He has now renewed the proposal and it is being considered as a Part II scheme for 1953-54.

THE HON. SRI A. B. SHETTY :—" As the District Headquarters Hospital is being enlarged it will become possible to provide more beds. There is also a tuberculosis sanatorium being put up at Mudushedde near Mangalore."
